

# PAR3/IT - TECHNOLOGY SOLUTIONS FOR BUSINESS

## *OnGuard Managed Services™ Highlights*

- 24x7 Proactive System Monitoring
- Automated Patching
- Managed Anti-Virus
- Managed Anti-Spam
- Bandwidth Monitoring
- Remote Remediation
- Toll-Free Level 1 & 2 Help Desk

For businesses today, downtime is not an option. Even a brief unplanned outage on critical hardware, data communication links, or applications can result in lost revenue and lower productivity.

*OnGuard Managed Services™* delivers proactive 24x7 system monitoring which allows Par3/IT to measure, analyze, diagnose and resolve problems. You and your users are assured of higher system uptime, increased peace of mind, and lower support costs.

Coupled with our toll-free Help Desk, OnGuard Managed Services means great support at fixed costs...no surprises!

## *Professional Services Highlights*

- Networking, Hardware, Software Installations
- Maintenance and Repairs
- Web Site Design and Maintenance
- Disaster/Recovery Planning
- Penetration/Vulnerability Testing
- Policies and Procedures

Your business is challenged with reducing costs, increasing revenue, and staying competitive. To meet these challenges, you need technology that is efficient, secure, scalable, and always available.

Par3/IT is staffed with highly experienced engineers and consultants to help you evaluate, integrate and maintain all of your computer systems: Servers, PCs, Voice, Datacom, Firewalls, Routers, VPNs, Cabling, Email, Mobile, Imaging, Backups, Database, Digital Surveillance, Business Software.

Keeping you online, keeping you secure, keeping you productive: That's Par3/IT!

## *OnGuard Hosted Services™ Highlights*

- Server Co-Location
- Hosted Virtual Servers
- Hosted Online/Offsite Backup
- Hosted VoIP
- Hosted Secure Portals
- Private Cloud Services
- Disaster/Recovery Center

In today's challenging business climate, you need to stay focused on your core products and services. You need to control capital expenditures and make sure every asset is a performing asset. After all, you have a business to run, not a data center!

With *OnGuard Hosted Services™* you can leverage our Tier 2 Data Center resources such as hosted virtual servers, hosted Microsoft software, and private cloud network--all with no capex!

Free up floor space. Eliminate costly upgrades. Reduce capital expenditures. And get back to business!
